

Macedonia2025 Monthly Digest: *A Recap of Activities in December 2025*

December was a month of reflection, solidarity, and meaningful impact at Macedonia2025.

Through advancing evidence-based advocacy through research, policy dialogue, and economic analysis, we closed the year by reinforcing what matters most - people, knowledge, and long-term development. Along the way, we continued to invest in leadership through our education and mentorship programs and contributed to important regional and international conversations on jobs, digital transformation, and inclusive growth.

Keep reading to explore how our work this past month continues to strengthen Macedonia's community, competitiveness, and future.

Your engagement fuels our mission to build a stronger, more connected, and innovative Macedonia. Together, we are creating opportunities for learning, growth, and positive change.

This Holiday Season, Let's Strengthen Care Together

This holiday season, we come together to support those who need strength the most. Your contribution helps strengthen the care provided at the University Clinic of Radiotherapy and Oncology, supporting patients, medical teams, and their vital work every day.

Every donation helps support patients, empowers medical teams, and reinforces the vital work done at the Clinic every single day.

Shaping the Conversation Through Research & Advocacy

Diaspora Engagement & Policy Dialogue

At the recent diaspora forum, we actively contributed to discussions on return, engagement, and long-term development. We continue to turn global experience into local impact with a new digital platform for diaspora support launching in the months ahead.

Position Paper: Living Standards Beyond GDP

GDP figures tell only part of the story. Our latest position paper explores Actual Individual Consumption (AIC) to better understand how people in Macedonia really live - from access to healthcare and education to everyday consumption - and how the country compares within Europe and the region.

Monthly Economic Monitor - Dec'25

Despite lower female enrollment in STEM fields, Macedonian women lead Europe in STEM graduation rates, surpassing both developed and regional peers. Their exceptional persistence challenges stereotypes and highlights the country's untapped potential in education and talent development.

Still Connected, Wherever They Are

Our Global Diaspora Survey 2025 shows that distance hasn't weakened the bond - 93% of respondents maintain active personal or business ties with Macedonia, proving that connection remains strong and full of potential. More insights and policy-relevant findings coming soon...
